

## DICK TAKES PAPERS- WITH HIM TO SECURE RETURN OF T. B. GRACE

It became known yesterday that James A. Dick, of El Paso, before leaving the city on Wednesday night for the west, secured all the necessary papers from the office of the district attorney to enable him to secure the return of T. B. Grace.

Dick expected to be in Phoenix yesterday and secure the regulation papers, armed with which he intended continuing to Los Angeles and starting the pursuit of Grace in California in earnest. Dick said in the court of Justice Thomas on Wednesday, after examining the papers in the check cases, under which Grace is now a fugitive from justice, that he would stand for no such imposition upon the public by any employee of his firm and that he would secure his arrest and punishment under the laws covering the case if it cost him thousands of dollars.

Mr. Dick left here with the belief fixed in his mind that Grace went to Los Angeles from this city and that he was on the water between Los Angeles and San Francisco, on a sailing vessel. He believed he would get Grace when he landed in San Francisco. Dick did not give out the information upon which he based this belief but he did indicate that he had information in which he entertained entire confidence and that he had got it from a source on the coast acquainted with the movements of Grace.

## NEVER SUSPECTED KIDN Y TROUBLE

Gained fifty pounds in weight. Some time ago I was suffering from what I supposed was rheumatism. I became so bad that I could hardly get on my feet from a sitting position. I ran down in weight from 195 to 145 pounds. I tried different kinds of medicine but received little or no help. I saw Dr. Kilmer's Swamp-Root highly recommended for kidney trouble but I never had any idea that my kidneys were affected. I thought I would try a fifty cent bottle of Swamp-Root and see what the effect would be. I commenced taking it according to directions and in a few days I saw that it was helping me. I used the fifty-cent bottle and then bought three more dollar bottles and they completely cured me. I have gone back to my original weight—195 pounds—and I am a thorough advocate of Dr. Kilmer's Swamp-Root as I believe it to be a remarkable preparation for what it is recommended to do.

WILLIAM H. PARTCH,  
New Haven, Ct.  
Personally appeared before me this 4th day of September, 1913, William H. Partch, who subscribed the above statement and made oath that the same is true in substance and in fact.

## COCHISE QUEEN IS MAKING GOOD IN TOMBSTONE CANYON

Eight miles out Tombstone canyon, in Box canyon, the Cochise Queen property is doing very well with the development work which has been in progress there since the first of the year.

One brought in from the property yesterday and placed on display at the office of Justice Walter Thomas has been attracting a good deal of attention. It has good luck, and that from the last work at depth gives encouragement in its appearance to believe that it will work into a permanent body.

The principal values of the Cochise area are in silver and lead. It is the belief that at depth copper values will be brought in. Their development at this time is in a shaft, which has been put down fifty feet, below in ore from the tunnel level which it cut through at depth of ten feet. The ore at present is showing from six to eight feet in width at the bottom of the shaft. Robert Hennessey, Joseph Hoffman and Robert Hart are prominently identified in furthering the affairs of the company. Mr. Hennessey being president.

## HUACHUCA PROPERTY OF GEORGE DUNN IS LOOKING LIKE MINE

George Dunn came in yesterday from the Huachuca, where he has been working his properties out from here for the last month and a half. Just before leaving the ground he loaded a car of ore for the Silver smelter in Colorado which he believes will make returns of from \$25 to \$30 the ton. In such event there will be abundant encouragement for putting on a large and operating more extensively at the property this summer.

The ore is a silver-lead property and comes from ground that has been worked off and on for more than twenty years. Mr. Dunn's development work, however, has been directed with better results toward getting something permanent in ore resources than any previous operations. The property now looks as if it had excellent chances to make good in a substantial way for its owner.

## HUERTA'S ARMY IN THE PATHE WEEKLY TODAY

Pathe's Weekly, carrying a good picture of General Huerta's troops in the City of Mexico at the present time, will be the feature of today's bill at the Royal Theater. The Weekly shows the 22nd regiment of Bureaux of the Mexican Federal Army, said to be the best fighting force south of the Rio Grande. This with other current events make the weekly picture a logical and real number this change.

Another feature secured for today is a film entitled "The Game of Politics." This picture describes the work of the accomplished politician in the big city, where ward leaders, bosses and all of the other appointments of corrupt municipal government rule supreme. The comedy feature of the day will be "A Hot Time in Snakeville."

## BRUTAL ASSAULT COMMITTED UPON DON LUIS WOMAN

It developed yesterday that arrest made of a Don Luis man on charge of assault upon a woman residing in that town involved a case of mistaken identity, the man arrested establishing an alibi. The night of the assault he was at work on his regular mine shift.

Mrs. H. Burton of Don Luis was the victim of the assault, which was a bold and brutal one. It occurred on Thursday night of last week as she was going to her home from the street car stop at South Bisbee. The man who committed the assault followed her from the car and in a secluded place suddenly grappled and choked her. She was confined to her home, where she managed to draw herself after the assault, under medical treatment until Monday, when she appeared and filed the charge of assault against the man subsequently arrested. A man who passed the scene of the assault gave the name of the man arrested as that of the one who committed the assault. This has since proved an error. The man who passed and took note of the man and woman alleged that he did not realize that there was anything wrong. At the moment her assailant had his hand on Mrs. Burton covered with his hand.

The man actually guilty of the assault is now believed to be known. He has left the district but the officers

## PROOF OF GOOD WORK SHOWN BY JAMESON

Phoenix Man Attributes Inaccurate Reports to His Former Associate.

Charles Jameson, mentioned in an article in the Review yesterday as the subject of inquiries from Phoenix relatives to representations he was alleged to be making, lost no time in making explanations that entirely set the aspect of the situation and put him in a favorable instead of an unfavorable light. He denies ever having made the representations charged and states that the inquiry from this city was a former employee of his who must have written the letter and sent the telegram because of the severance of their relations.

Jameson was an early caller in the office of the Commercial Club yesterday morning to explain the matter that led to insinuations of grafting. He brought with him samples of his work and explained what he is doing. "I have never stated that I am sent out by the Phoenix Board of Trade or that there is a photograph room at the capital building where my work is
